CHEMICAL PROTECTIVE WORKWEAR
HEAD AND NECK PROTECTION

Neck Cloths

For attachment to a safety helmet to provide neck protection from chemical splashes.

- Available in a wide range of fabrics compatible with other garments in the chemical workwear range
- Can be fitted to most makes of safety helmet
- Designed for use where operators are dressed in either one-piece suits or jackets
- Particularly suitable for refineries with overhead pipework where protection from overhead splashes is essential
- Wrap around neck cloths offer greater face protection to the user

Material Options

- Viton/Butyl/Viton
- Viton/Butyl/Polyester
- Butyl
- Neoprene
- PVC

See permeation guide for material suitability for particular chemicals

Anti-Splash Hood

Reusable anti-splash hoods are available in a range of materials to provide the best possible protection against numerous potentially hazardous situations

- Designed for short duration work
- Highly chemically resistant visor
- Air vents at the front and rear of the hood
- Large front and rear capes providing protection to the chest area, secured by adjustable straps under the wearer’s arms
- Hanging point bonded to the top of the hood to allow proper storage

Important Notes

- Anti-Splash Hoods must not be worn in confined areas where there may be fumes or vapours, or the oxygen content in the air drops below 21%
- Strenuous work that increases the wearer’s breathing rate should not be undertaken whilst wearing the hood

Material Options

- Viton/Butyl/Viton
- Viton/Butyl/Polyester
- Butyl
- Neoprene
- PVC

See permeation guide for material suitability for particular chemicals

Performance
